the global economy a concise history traces the history of the global economy over the past thousand years in doing so it explores all the main waves of globalization from the trade revolution of the middle ages to the great and little divergence between the west and the east as well as the north and the south of the world this book examines the industrial revolution and the world wars and their respective consequences as well as the interaction between technological shifts and the transition in geopolitical equilibria the last chapters are dedicated to an in depth examination of the transformation which occurred in the global economy after 1989 the chronological structure of the book is designed to help students memorize and understand key events this book also discusses broader themes such as convergence divergence growth and decline development and industrial revolutions this will make it of interest not only to students and academics but to all readers wishing to gain a deeper understanding of the history and current state of the global economy

this wide ranging collection of previously published articles by raymond vernon reflects a portion of the diverse subjects on which he has worked during his career in the past 20 years the author has pioneered the study of two major economic institutions which have played important roles in today s global economy the multinational corporation and the state owned enterprise his recent thoughts on these subjects are well represented in this volume co published with the harvard center for international affairs

examines the concepts people and organizations related to economic globalization from the sixteenth century to the present and features over 150 alphabetically arranged entries and primary documents on topics including international trade outsourcing and child labor

understanding the global economy names the first step in coping with or transforming the flawed global ethics to that end the author explains the economic theory social science and thought that formed the basis of the global system applied to the sense of our current crisis this book shows the ethics and forces that make the global market work as it does and how it fails it presents a balance of the historical basis for global markets with the relevant economic theories ethics ideology inclusive research of all the leading scholars the current issues of the crisis and the failed solutions through the intellectual background with an expose of the current crisis the author leads us to a seemingly ironic prescription which he lives the willing caring heart of humanity that knows no bounds the book presents the solution by an analysis of the economic history from antiquity through the present observations and research of the likely solutions and decades of proactive work to enact the lasting solution

issues of migration environment rurality and the visceral politics of place and space have occupied center stage in recent electoral political struggles in the united states and europe suffused by an antiglobalization discourse that has come to resonate with euro american peoples race and rurality in the global economy suggests that this present fractious global politics begs for closer attention to be paid to the deep rooted conditions and outcomes of globalization and development from multiple viewpoints the contributors to this volume propose ways of understanding the ongoing processes of globalization that configure peoples and places via a politics of rurality in a capitalist world economy and through an optics of raciality that intersects with class gender identity land and environment in tackling the dynamics of space and place their essays address matters such as the heightened risks and multiple states of insecurity in the global economy the new logics of expulsion and primitive accumulation dynamics shaping a new savage sorting patterns of resistance and transformation in the face of globalization s political and environmental changes the steady decline in the livelihoods of people of color globally and their deepened vulnerabilities and the complex reconstitution of systemic and lived racialization within these processes this book is an invitation to ask whether our dystopia in present politics can be disentangled from the deepening sense of white fragility in the context of the historical power of globalization s raced effects this book is freely available in an open access edition thanks to knowledge unlatched an initiative that provides libraries and institutions with a centralized platform to support oa collections and from leading publishing houses and oa initiatives learn more at the knowledge unlatched website at knowledgeunlatched.org and access the book online at the suny open access repository at hdl.handle.net/20.500.12648/7136

beyond europe central asia the middle east and global economy is an interesting look at the role of central asia and the middle east in the global and eurasian economy authors of this volume highlight the most important conditions of global and regional cooperation and political and economic competition the volume provides a broad and critical analysis of regional geoeconomic trends it underscores the most important conditions of global and regional cooperation and political and economic rivalry as well as the position of regions in the economic and foreign policy of global and regional powers the wide selection of examples means that the reader receives a large dose of knowledge about the political and economic realities of these regions the ongoing processes and the specifics of the rivalry

this collection of contemporary essays addresses the imposing changes occurring in the global economy and presents thoughtful policy options for managing them the debate among these experts vividly illustrates the dimensions and consequences of the new global economy for the u s population and suggests appropriate policies for mitigating its impact contrasting perspectives on the origin and trends of the current international economic order are offered each contributor presents a complex position in nontechnical terms and with helpful examples the result is a work accessible to readers from a variety of professions

cities in a world economy examines the emergence of global cities as a new social formation as sites of rapid and widespread developments in the areas of finance information and people global cities lie at the core of the major processes of globalization the book features a cross disciplinary approach to urban sociology using global examples and discusses the impact of global processes on the social structure of cities the fifth edition reflects the most current data available and explores recent debates such as the role of cities in mitigating environmental problems the global refugee crisis brexit and the rise of donald trump in the united states
